Objectives

1. Utilize advancements in geotechnical engineering to enhance the accuracy and depth of soil analysis.
2. Objectives may include deploying advanced geophysical methods, such as ground-penetrating radar or seismic techniques.
3. provide a comprehensive understanding of subsurface conditions.

Resource persons

Mrs. T. PAVANI

Eligibility

UG STUDENTS

OUTCOME

1. Geotechnical engineering has witnessed improvements in soil testing methods, with the advent of technologies such as cone penetration testing (CPT) and geophysical methods.
2. These provide more accurate data on soil properties, allowing for a better understanding of subsurface conditions.
3. The integration of geospatial technology, including Geographic Information System (GIS) mapping, enables engineers to overlay soil data with geographical information.

CHAIRMAN

Atluri Srinivasa Reddy Chairman At A.M.Reddy Group, Learning is based on doing things and not merely knowing things, otherwise which the whole process will remain Superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders.

Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education. Great talent without will-power and hard work, is like hidden untapped precious natural resources. Our institution aims at bringing out these natural talents in students and leverages them for individual growth and excels in their careers too

SECRETARY

Engineering education plays a vital and most significant role in nation's building. Engineers create new inventions using best engineering technologies to make Human life more comfortable, secure, and productive.

In these modern times, nations which have rich engineering and experienced management domains are flourishing economically and are providing better lives to their people. We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need numerous engineers and managers to develop plenty of successful inventions.

VISION:

To be the best at serving society by creating engineering knowledge and Educating engineers for dynamic and global careers.

MISSION:

The college of Engineering serves the state, the nation, and the world by Graduating talented. Broadly educated engineers. Conducting high quality research, developing breakthrough technologies, and disseminating and preserving technical knowledge.

QUALITY POLICY:

A.M. Reddy Engineering College, strongly believe that Quality is the essence of life. Hence, AMRN will constantly strive to improve the quality of education and training imparted to its students by establishing state-of-the-art laboratories and modernizing them continually, upgrading the knowledge and skills of its staff periodically and developing strong linkages with industry.

Objectives:

Increase participants' understanding of artificial intelligence, particularly in the realm of natural language processing (NLP) and conversational AI

Raise awareness about the capabilities and potential applications of ChatGPT as a state-of-the-art language model

Provide an in-depth exploration of the architecture, workings, and underlying principles of ChatGPT, including its transformer-based architecture and training methodologies

Outcomes:

Overview of artificial intelligence, its applications, and importance in modern society

Introduction to ChatGPT, explaining its architecture, capabilities, and use cases

Explanation of chatbots, conversational agents, and their role in AI

Course content:

- Introduction to AI and ChatGPT
- Fundamentals of Chatbots and Conversational AI
- Understanding ChatGPT
- Applications of ChatGPT and AI
- Ethical and Societal Implications
- Future of AI and ChatGPT

About the college:

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petlurivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services.

About the department

The Department of Computer Science and Engineering (CSE) was established in 2008 Ever since its inception, the department has been a pioneering academic centre for higher education, research, and innovation in key areas of computer science. The constantly changing dynamics of this Engineering stream poses challenges to students to stay updated with the latest developments. Our qualified faculty and advanced labs ensure that our students are well prepared to take on these challenges. The department attracts talented students from all over India. All graduates of CSE find excellent placements in research-oriented industries and top ranking MNC's.

The department currently offers 4 year Under Graduate Programs in computer science and Engineering, and Cyber Security branches.

OUTCOMES:

- Learn about Biometric Devices and its applications
- Build your Biometric Authentication using Finger Print Scanner
- Work with Arduino, Biometric Scanners, LCD Display, etc.
- Understand and Implement Arduino Programming
- Test your project with your own finger print

Course content:

What Is Biometric Authentication?
What Is Multi-Factor Authentication?
Biometric Authentication vs. Verification.
Benefits of Biometric Authentication for Enterprise Security
Must-Have Features for Biometric Authentication Tools.

We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need numerous engineers and managers to develop plenty of successful inventions.

VISION:

To be the best at serving society by creating engineering knowledge and Educating engineers for dynamic and global careers.

MISSION:

The college of Engineering serves the state, the nation, and the world by Graduating talented. Broadly educated engineers. Conducting high quality research, developing breakthrough technologies, and disseminating and preserving technical knowledge.

QUALITY POLICY:

A.M. Reddy Engineering College, strongly believe that Quality is the essence of life. Hence, AMRN will constantly strive to improve the quality of education and training imparted to its students by establishing state-of-the-art laboratories and modernizing them continually, upgrading the knowledge and skills of its staff periodically and developing strong linkages with industry.

About the college:

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petlurivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well-ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

About the department

The Department of Electronics Communication and Engineering (ECE) was established in 2008. Ever since its inception, the department has been a pioneering academic center for higher education, research, and innovation in key areas of Electronics. The constantly changing dynamics of this Engineering stream poses challenges to students to stay updated with the latest developments. Our qualified faculty and advanced labs ensure that our students are well prepared to take on these challenges. The department attracts talented students from all over India. All graduates of ECE find excellent placements in research-oriented industries and top ranking MNC's.

The department currently offers 4 year Under Graduate Programs in Electronics Communication and Engineering.

Introduction:

Objectives:

The Objectives of IP Sixth Sense Technology are to learn about IP Sixth Sense Technology to be familiarized with universal electronics communication concepts like expectation, thinking to be familiarized with general electronics concepts like components & functions to be familiarized with general coding techniques and object-oriented techniques.

Outcomes:

Develop essential electronic skills in electronics communication concepts like IC's, transistors. Apply the basics of electronics in the Sixth Sense Technology. Solve executing tasks related to circuits execution, circuit execution tasks related to the fundamental notions and techniques used in object-oriented techniques.

Course content:

What is Sixth Sense Technology, how to develop Operations Using Sense Technology executing, - Indexing & Slicing, Advanced integration, integral, logical.

OBJECTIVES

1. Smart cities aim to promote sustainable transportation by integrating intelligent systems that encourage the use of public transit, cycling, and walking.
2. This includes the development of eco-friendly transportation options to reduce environmental impact.

Resource persons

Dr. R. RATNA PRASAD

Eligibility

UG STUDENTS

OUTCOMES

1. Smart cities leverage intelligent transportation systems to optimize traffic flow, reduce congestion
2. Enhance overall mobility through real-time data analysis and adaptive traffic signal control.
3. Integration of smart technologies in transportation contributes to reduced carbon emissions by promoting eco-friendly modes of transport, optimizing routes

CHAIRMAN

Atluri Srinivasa Reddy Chairman At A.M.Reddy Group, Learning is based on doing things and not merely knowing things, otherwise which the whole process will remain Superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders.

Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education. Great talent without will-power and hard work, is like hidden untapped precious natural resources. Our institution aims at bringing out these natural talents in students and leverages them for individual growth and excels in their careers too

Engineering education plays a vital and most significant role in nation's building. Engineers create new inventions using best engineering technologies to make Human life more comfortable, secure, and productive.

In these modern times, nations which have rich engineering and experienced management domains are flourishing economically and are providing better lives to their people. We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need numerous engineers and managers to develop plenty of successful inventions.

VISION:

To be the best at serving society by creating engineering knowledge and Educating engineers for dynamic and global careers.

MISSION:

The college of Engineering serves the state, the nation, and the world by Graduating talented. Broadly educated engineers. Conducting high quality research, developing breakthrough technologies, and disseminating and preserving technical knowledge.

QUALITY POLICY:

A.M. Reddy Engineering College, strongly believe that Quality is the essence of life. Hence, AMRN will constantly strive to improve the quality of education and training imparted to its students by establishing state-of-the-art laboratories and modernizing them continually, upgrading the knowledge and skills of its staff periodically and developing strong linkages with industry.

About the college:

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petlurivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well-ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

About the department

The Department of Computer Science and Engineering (ECE) was established in 2008. Ever since its inception, the department has been a pioneering academic centre for higher education, research, and innovation in key areas of Electronics. The constantly changing dynamics of this Engineering stream poses challenges to students to stay updated with the latest developments. Our qualified faculty and advanced labs ensure that our students are well prepared to take on these challenges. The department attracts talented students from all over India. All graduates of ECE find excellent placements in research-oriented industries and top ranking MNC's.

The department currently offers 4 year Under Graduate Programs in computer science and Engineering, and Cyber Security branches.

Introduction:

OBJECTIVES:

- Sensors detect train arrival and departure and send appropriate signals to microcontroller
- Microcontroller is programmed to operate motorized railway gates as per sensor input

OUTCOMES:

- Design and build your own Automated Railway Crossing Project
- Exposure to Embedded Systems
- Understand the structure and programming of microcontrollers
- Practical experience with DC motors, ICs and sensors

Course content:

Introduction

Automatic control system.

Working of automatic control system.

Overview of project

Introduction of automatic railway crossing system.

Simulation of power circuit in Proteous.
